## Between the Lines

A publication of the Baylor Alumni Association

### Kicking it off....

- The Winter 2016 issue of the Baylor Line will hit your mailboxes soon, but we thought we'd share the cover story – Where Have All the Baptists Gone? – in advance. [Here's a link to the article](#), which looks at the reasons behind declining enrollment of Baptist students (and a decline in Baptist professors) over the past 24 years — from a general decline in denominational identity to the 1990 charter change, philosophical changes in recruitment strategies dating back to the Baylor 2012 initiative, and sharp increases in tuition over the past decade that have made it more difficult for middle-class Baptist families to choose Baylor over less expensive alternatives. The post offers you a chance to read the article as it appears in the magazine, or, if you're on a mobile device there's a link to a text-only version.
